

Good news Platte Countians!!

I have just confirmed with the *Platte County Health Department* that they have received 300 doses of Covid vaccine and are currently calling residents over 90 and setting up appointments for their shots.

Go to their website (plattecountyhealthdept.com) for more information and to complete the survey as it is required in order to get on the waiting list for the vaccine.

The person I spoke with was not for shore but thought they would be getting more next week!! Yay!

Don't panic Platte County - help is on the way!! **Keep wearing your mask and practicing social distancing** - we've got this!!
